**WC Docket No. 05-196  
Compliance Letter**

Ms Dortch:

Listed below are Lakedale Telephone Company's responses to the information required in the above docket.

**911 Solution**

100% of our VoIP subscribers receive 911 services in compliance with the rules established in the *VoIP 911 Order*.

The Company transmits all 911 calls via the Wireline E911 network to the appropriate PSAP.

As of November 28, 2005 the Company is directly connected to two PSAP's and is not connected to any Selective Routers.

The Company transmits ANI and Registered Location information on all 911 calls, via the Wireline E911 network, to all PSAP's that are capable of receiving and processing this information.

Based on our knowledge and belief, 100% of PSAP's in the Company's serving area are capable of receiving and processing ANI and Registered Location information.

Based on our knowledge and belief, 100% of the Company's VoIP subscribers are served by PSAP's are capable of receiving and processing ANI and Registered Location information.

No. of Copies rec'd 024  
List 10/1/05

As of this date the Company has not marketed VoIP services in areas that do not fully comply with the *VoIP 911 Order*.

**Initial Registered Location Information**

The Company began offering VoIP services in September of 2005. Consequently we have Registered Locations for 100% of our customers. Service applications for new customers include a field for a 911 address (Registered Location). VoIP services are not activated unless the subscriber provides a valid 911 address.

**Updating Registered Location Information**

Customers may use any reasonable method of communication (verbal, written, e-mail, etc) that allows us to update their Registered Location.

**Nomadic Subscribers**

The Company markets VoIP service as a "fixed" location service. We have yet to begin research into any technical solution(s) for providing 911 services to nomadic subscribers.

I can be reached at 320-274-8201 if you have any questions.
